

SUPERCHEM 862

Chain Drive Pin & Bushing Lube, High Penetration

SUPERCHEM 862 is a high performance light lubricant, specially design to penetrate between the chain drive bushings and pins. By generating a long last non-drying oil film between metal surfaces, 862 could effectively reduce wearing and provide stable running.

Features

- ***Color: Clear Brown***
- ***Viscosity SSU@40°C (mm²/s): 22***
- ***Flash Point (°C): 188***
- ***Pour Point (°C): -50***
- ***Weld Load (KG): 250***
- ***Copper Corrosion (ASTM D 130) (100°C, 3h) (Grade): 1***
- ***Pin & Vee Block Failure Load. Max. Torque (PB, KG): 66***
- ***Four Ball Wear Test (1800r/min, 54°C, 196N, 60min) (mm): 0.32***
