

# ***SUPERCHEM 1611***

*Extreme Pressure Grease,  
Calcium sulfonate complex, Multi-purpose*

***SUPERCHEM 1611 is a calcium sulfonate complex grease designed for high temperature bearing applications. It's outstanding stability and water washout resistance make it an ideal choice for applications in wet, hot and corrosive environments.***

## ***Features***

- ***Color: Dark Red***
- ***Dropping Point: >300°C (NLGI 00 ~ 4)***
- ***Shear Stability: 10,000 times +2%; 100,000 times +3%***
- ***Water Washout: 0 ~ 1%\****
- ***Continue working Temp.: -20 ~ 200°C***
- ***Copper Corrosion Test (GB/T 7326): Pass***
- ***Four Ball Weld Test (ASTM D2596): ≥500KG (1100 Lbs)***
- ***Four Ball Wear Test (ASTM D2266): <0.5mm***

*\* Lab results for individual production lots tested; some variability will occur*
