

SUPERCHEM 773C

Surface Lubricant, Resistance to water washout

SUPERCHEM 773C has an excellent viscosity which offers it stick to equipment surface and prevents water washout. By generating an oil film, 773C could provide an extra anti-corrosion protect on metal surface. 773C is specially for open gears, wire rope.

Features

- ***Color: Brown***
- ***Density KG/L: 0.890***
- ***Weld Load (KG): ≥ 500***
- ***Flash Point ($^{\circ}\text{C}$): ≥ 260***
- ***Viscosity SSU@40 $^{\circ}\text{C}$: 8000 ~ 9000cSt***
