

SUPERCHEM 861

Anti-Seize Lubricant

SUPERCHEM 861 is a non-carbonizing Anti-Seize lubricant which withstands high temperatures and extreme pressures. Blended of ultrfine inorganic particles and a synthetic oil base, 861 prevents galling of threaded parts and mating surfaces during assembly/disassembly up to 1200°C (2200°F).

SUPERCHEM 861 also acts as an anodic protective treatment which helps to avoid corrosion between surfaces.

Features

- ***Color: Silver grey***
- ***Density KG/L: 1.2***
- ***Dropping Point (°C): >316***
- ***Copper Corrosion: None***
- ***Weld Load (KG): ≥400***
- ***Partical Size: <25Q***
